

Little Landers Historical Society Presents

Native American Culture of Sunland-Tujunga

The historic village of Tujunga is thought to be a Gabrielino or Tongva settlement. Study of the mission registers of San Fernando and San Gabriel Missions and other historic documents indicate that settlements along the base of the San Gabriel Mountains were of the Serrano nation. Tujunga was the western most of these settlements. Our speaker for this program is Chester King. Mr. King has studied archeology since his high school days in the 1960s. He has a Masters from UCLA and a PhD in Anthropology from UC Davis. He has researched the early baptismal records at several of the Missions and discovered many interesting facts about the various tribes. Dr. King will discuss differences between the Tongva and Serrano nations and present evidence for Tujunga being a Serrano settlement. Please join us for this interesting program.

Saturday
January 14th, 2012

1:00 PM

Bolton Hall Museum

10110 Commerce Avenue, Tujunga
(corner of Valmont & Commerce)

Parking available at the Elks Lodge
